Where is this Quiet Little Park Located in Town

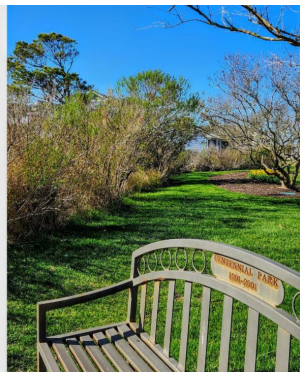

- BBLA joined other area citizen groups and local area Town officials in an "invitation only" study meeting (Charrette) sponsored by the US Army Corps of Engineers & the DE Dept of Natural Resources & Environmental Control
- Charrette Goal: designing a path forward plan by obtaining relevant information and ideas from stakeholders related to coastal storm risk reduction measures
- With 83 coastal flood events in Sussex County in the last 22 years - a federal/state Coastal Storm Risk Management Feasibility Study of the DE Inland Bay and DE Bay Coast is of significant importance to the BB area
