

EXAMPLES of BBLA's AREAS of CONCENTRATION REGARDING GROWTH:

- **Planning and Zoning Code** - e.g.- fill dirt; clear cutting tree removal, impervious surfaces
- **Safety** - e.g. - overcrowding on Town streets and State roads leading to safety concerns; increased traffic affecting pedestrian and bicycle safety
- **Infrastructure Capacity** - e.g. - traffic congestion, evacuation routes, and soft infrastructure like buffers to assist in storm water management
- **Public Services Capacity** - e.g. – matching BB public services and first responders to support increasing numbers of visitors and non-BB residents in surrounding areas
- **Overcrowding of the Ocean Beaches** - e.g. - small beach in BB; beach parking issues in Towns and State Beaches; large community shuttle services to utilize the beach
